YEAR BOOK

It is particularly essential under present day conditions that any rise in the value of your property be promptly matched by an increase in the amount of your insurance. Check up frequently. Better still, make this agency responsible for maintaining your protection at a safe level.

Ormond Ins. Agency
Complete Insurance Protection
Morrilton, Arkansas
For over 137 years, even during the financial depressions following five wars, seven panics and all of America's conflagrations, the Hartford has met every obligation, in cash . . . the certainty of Hartford protection has been tested by time and disaster.

Buy insurance you know is certain . . . year in and year out, you'll do well with the Hartford.

13 14
Back in service 4 P.M. Today, Frink found at Morton
Robert Anderson, Louie Allens, a party of young
people came 5:30 P.M. to use our telephone.

I have done more work this year & collected
more from my practice, $12.81, than in any
year since 1919. The expenses of my practice,
however, have been larger than ever
before. The Spring has made a few
hundred dollars, but the pearl market,
which last year paid more than $400, has
paid nothing this year, due to the
price that turned one at last March 29.

Mother has not been as well as she
was last year, but we are thankful that
we have been able to do our work.
**MEMORANDA**

**Postal Information**

**Domestic Postage**

Domestic rates of postage apply to all parts of the United States, which includes Hawaii and Alaska, and all its possessions; also, to mail for the Armed Forces and crew of the vessels of war of the United States, and to other places where the United States mail services may be in operation.

**Military Mail** — Consult postmaster regarding rates on and conditions applicable to all mail matter addressed to members of the armed forces.

**First Class Matter** — Letters and written matter, also other matter if sealed against postal inspection. 80 cents per ounce or fraction thereof, except post and postal cards and QSL Letters for non-carrier offices, provided addresses are not served by rural or air route carriers, which are under existing law made at 10 cents per ounce or fraction thereof.

**Air Mail** — From one post office to another on the mainland of the United States, including Alaska, and from one post office to another in Hawaiian Islands, and from one post office to another in Puerto Rico, from one post office to another in Virgin Islands of the United States, and between the latter islands and Puerto Rico, but not between the mainland of United States and any of these islands, 9 cents per ounce or fraction thereof.

**Second Class Matter** — Unsealed Newspapers and periodicals, which are "Entered as Second Class Matter," may be sold at the publisher's rates only, when mailed by public 1c for each 2 ounces or fraction thereof, or the fourth class rate, whichever is lower.

**Third Class Matter** — (Limit of 8 ounces.) Cigars and miscellaneous printed matter, also merchandise, 1½ cents per 8 ounces.

**Fourth Class (Parcel Post) Mail** — Merchandise, farm produce, books, printed matter, and all other mailable matter, weighing more than 8 ounces, not included in the first, second, and third classes. Rates are the same as parcel post.

Consult your local postmaster.

The postage on all mail matter of the 4th class is increased by $.01 per centum, fractions of 20 cents or more being computed as 20 cents, but in no case shall the increase per parcel be less than 10 cents.

In the following table the rates shown are under the old schedules. Add $.03 per centum to these rates, but not less than 10 cents per parcel.

**How to Prevent Fires**

Most fire losses occurring in the United States and Canada, the two countries that lead the world in per capita loss, arise from causes easily preventable. You can reduce your probability of loss by attention to the following simple precautions:

1. **Provide metal containers for hot ashes and prohibit the use of wooden receptacles.**

2. **Keep your property so that it is easy to turn off current when leaving electric irons and other heating appliances, even for a short time.**

3. **Use only good standard fuses and never permits the substitution of coins or wires for blown fuses.**

4. **Examine metal fluors periodically and see that they are renewed before they are badly weakened by internal rust or otherwise.**

5. **Keep in mind that accumulations of rags are removed from your chimneys at least once in each year, preferably before lighting fires in the Fall.**

6. **Maintain that gasoline and other inflammable materials, including drugs, are kept out of reach of where there are open fires or flames of any kind.**

7. **Keep dry storage of your flowing, see to it that they are kept, when not in use, preferably on an inflammable floor (such as the concrete floor in your basement) and never in a closet.**

8. **Keep your supply of matches in a closed metal receptacle and out of reach of the children.**

**Rules in Case of Fire**

Familiarize yourself with the location of windows and natural escapes. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Read the doors of each story.

Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke.

If you cannot escape with safety, lie down, prevent the smoke from entering your face. Open windows from the top.

**Common Stains and How to Remove Them**

### Blotting and Meats Stains
- **Blood and milk.** Use cold water; soap and cold water; or starch paste.
- **Blotting.** Use blotting water, chocolate and cold water; bleach if necessary.
- **Coffee and tea.** (Clear)-Use boiling water; bleach if necessary. (With cream).-Use cold water, then boiling water; bleach if necessary.
- **Cream and milk.** Use cold water, then soap and cold water.
- **Egg.** Use cold water.
- **Fruit and juice stains.** Use boiling water; bleach if necessary.
- **Grass.** Use cold water; soap and cold water; alcohol and a bleaching agent.
- **Grease.** Use French chalk blending water or other absorbent; or warm water and soap, or gasoline, benzine, or carbon tetrachloride.
- **Jellies.** Use warm water and soap; alcohol and an absorbent.
- **Ink.** Try cold water; then use an acid or bleach if necessary.
- **Iron.** Use oxalic acid; hydrochloric acid; nitrates of lemon; or lemon juice and salt.
- **Kerosene.** Use warm water and soap.
- **Lamplight and soot.** Use kerosene, benzene, chloroform, other gasoline, or carbon tetrachloride.

- **Shoe polish.** (Black).-Use soap and water; or turpentine. (Tan).-Use alcohol.
- **Syrups.** Use water.
- **Toothpaste.** Use cold water and soap and or benzine, gasoline or carbon tetrachloride.
- **Water.** Steam or sponge the entire surface of water-soaked materials.
- **Wax.** Scrape off as much as possible. Use French chalk, bleaching paper or other absorbent, with a warm iron; or use benzine or gasoline. If color remains, use alcohol or bleach.
**Rules for Computing Interest**

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the number to express interest in dollars and cents. When the principal contains dollars only, point off two places.

Two Per Cent,—Multiply the principal by the number of days to run, and divide by 180.

Two and One-half Per Cent,—Multiply by number of days, and divide by 144.

Three Per Cent,—Multiply by number of days, and divide by 120.

Three and One-half Per Cent,—Multiply by number of days, and divide by 103.

Four Per Cent,—Multiply by number of days, and divide by 90.

Five Per Cent,—Multiply by number of days, and divide by 72.

Six Per Cent,—Multiply by number of days, and divide by 60.

Seven Per Cent,—Multiply by number of days, and divide by 52.

Eight Per Cent,—Multiply by number of days, and divide by 45.

Nine Per Cent,—Multiply by number of days, and divide by 40.

Ten Per Cent,—Multiply by number of days, and divide by 36.

Twelve Per Cent,—Multiply by number of days, and divide by 24.
