# Norrell Talks To Rotarians

## Praises Citizens For Co-operation On Jap Camps

At the regular weekly Rotary luncheon last Friday, Congressman Norrell was the principal speaker, and said that Desha county citizens had again demonstrated their patriotism and loyalty to the nation by the splendid manner in which they had co-operated in connection with the location of the Japanese colony at Rohwer. Removal of the Japs to interior points, he said, was a measure to aid in the protection and defense of our coastal areas.

Congressman Norrell said that no one knew how long the war would last, but that one thing was certain—the United Nations would win! In spite of the continued sinking of allied merchant ships, he said that supplies and implements of war being sent to our forces, and to our allies, was getting safely to its destinations. He said that the convoy system was a success.

"There are more American soldiers in foreign lands today than there were at the conclusion of the First World War," the Congressman said. "We are also winning the Battle of Production, and are now producing the best guns, the best planes, and the best equipment in large quantities. We now have an army of over 4,000,000 and by the end of 1943 will have an army of 8,000,000—the best trained, the best equipped, and the finest soldiers in the world! And you can mark it down, that after this war has ended, the American navy will not be scuttled, the American army will not be disbanded. We will maintain an army and navy of sufficient size to enforce the peace in the future!"
