Pinnacle Mountain State Park slides and photograph collection, Arkansas State Archives, Little Rock, Arkansas.

Historical Note:

Pinnacle Mountain State Park, located in Pulaski County, Arkansas, was commissioned by the Little Rock Chamber of Commerce and Arkansas State Parks in 1971-1972 and was approved by the Arkansas General Assembly in 1973. In 1977, 2,356 acres were designated as Pinnacle Mountain State Park, forming Arkansas's first state park to be adjacent to a major city. Pinnacle Mountain's elevation reaches over 1,000 feet above the Arkansas River Valley and is over 750 feet from the flood plain. Pinnacle Mountain is the second highest natural point in Pulaski County, Arkansas following Shinall Mountain. Park visitors can climb the mountain's peak, a common attraction and activity for visitors since the 1800s, via hiking trails. Pinnacle Mountain State Park also offers visitors picnic areas, pavilions, and a visitor's center that overlooks the Arkansas River.

Scope and Content:

This collection is comprised of approximately 5,400 slides depicting Pinnacle Mountain, its wildlife, natural environment, as well as state park workers performing presentations, maintenance, and hiking tours. Also included are papers corresponding to slide groups, a number of photographs, and accompanying negative 35mm strips.

Arrangement:

The slides of this collection are arranged by category groups from a Slide File System Categories Key created by the Arkansas Department of Parks and Tourism. Categories are noted by numbers located on the side of each slide. The Slide File System Categories Key lists each number's subject, i.e. Pinnacle Mountain, Ouachita Backpacking, Birds, etc. In order to distinguish each category and its assigned number, please see the Slide File System Categories Key in Box 10 of this collection.
