WEEKLY REPORT  
ROSENBERG RELOCATION CENTER  
NOVEMBER 15, 1945

GENERAL COMMENT BY PROJECT DIRECTOR

Week ending November 15, 1945

Local papers continued to carry stories of the trouble at Tule Lake. This news was not given undue prominence, but it is believed that it will have an adverse effect on local public opinion. Many people will not make the proper distinction between the Tule Lake center and the relocation centers. Local papers did not use much of the sensational material which was played up by the West Coast papers.

Mr. Frank Cross of the Washington office and Mr. Harry Weiss, Regional Reports Officer from Cleveland, spent several days at the center. Mr. Cross held two discussions concerning information for relocation and its distribution. One of these meetings was attended by the chairman of the block managers, the chairman of the community council, and the chairman of the evacuee relocation committee. It was agreed that most of the informational material would be distributed by the relocation committee with the assistance of the block managers.

Only twenty leave clearance hearings were held during the week, although the weekly quota was 63. The reduced number was due to the fact that a sufficient number of dockets were not received from the Washington office.

The dispute between certain evacuee leaders and evacuee officials of the Co-op has died down, and it is believed there

will be no serious complications from this incident. However, an investigation of the matter is continuing.

The Assistant Project Director in charge of Community Management, attended an annual meeting of the Christian World Institute which was held at Kansas City, October 31 to November 7. He made a series of nineteen addresses and led several discussions.
